WIDE+ wishes you a 2021 that is filled with good health, renewed energy and joyful solidarity!

2020 has been a year of unprecedented challenges. Despite the difficulties, feminists all over the globe have continued to mobilise, reflect, and resist against the unrelenting forces of capitalism, patriarchy and racism that persisted during the pandemic. This has been both inspiring and frustrating.

In the new year of 2021, WIDE+ members and partners look forward to building a more sustainable, racially equitable and people-centred feminist world with you. We will continue to fight the good fight.

The picture collage shows the different projects WIDE+ members and partners have been involved in throughout 2020.
