WIDE+ joined the Sign-On Statement for Global Week of Action for Justice and Debt Cancellation

Once again, the IMF and the World Bank will hold their annual meetings, and we want to maximize this period to raise ever more strongly our demands around debt justice, particularly the demand to #CancelTheDebt in the face of the economic, public health and climate crises. We need to make more resounding noise in order to be heard above the spin of false debt solutions and business-as-usual approaches by international financial institutions and other public and private lenders. If your organisation wishes to sign the statement, please go this link.

The Global Week of Action for Justice and Debt Cancellation will be on 10 to 17 October 2022. More information will be shared soon.

The research works which will be discussed in the webinar is published in a special issue of the journal Anti-Trafficking Review on 27 September. It centres LGBTI+ people as actors in the context of migration and examines the ways in which diverse sexuality and gender identities influence people’s experiences of legal legibility and recognition in their migratory journeys.

Online Recording from IWDA: Radical Wellbeing: Reimagining Collective Care for Feminist Activists

New Podcast Episode by ILGA Europe: LGBTI Equality and Accession to the EU

In this two-part episode of The Frontline podcast, presented by Belinda Dear, ILGA Europe looks at the new wave of accession to the European Union and what it will mean for LGBTI people.

With the current state of LGBTI rights in Central Europe, highlighted most recently by the Serbian government’s anti-democratic instrumentalising of LGBTI people in an effort to try to stop EuroPride in Belgrade, how does this kind of backsliding play into the accession process? And what about countries like Ukraine, where LGBTI rights have barely been on the governmental agenda? What are the opportunities to be gained by candidacy for joining the EU?
